### Japanese Plan to Climb Everest; British Failed

CALCUTTA, India.—(AP)—A new assault on the unconquered heights of Mt. Everest, recently the scene of still another British failure to scale the 29,000-foot peak, may be launched by a Japanese expedition which has reached here.

The 24-year-old leader of the Japanese party, Kaguro Yamagata, said that the first goal will be the Nanda Kot peaks in the Himalayas.

"If we are successful," he added, "an attempt will be made to lead the expedition to the higher peaks of the Himalayas, including Mt. Everest."

Most of the members of the Japanese party are graduates of Rikkyo University, at Tokyo.

### U. S. Citizens Glad to Get Back Home

Europe a Dark Madhouse of Revolution and Threats of World War

NEW YORK.—The United States liner Washington brought home several public figures Thursday, all painting a dark picture of conditions abroad.

"Any American who is nervous over conditions at home or 'sick in mind and spirit' about this country needs only a 30-day series of baths in the atmosphere of any European country," for a cure, said Secretary of Commerce Roper. "Such a course will prompt gratitude for what we have and make all such persons better citizens."

John W. Davis, Democratic presidential candidate in 1924, found Europe "steadily moving the powder barrel closer to the fire." He said "there is plenty of combustible material."

James W. Garard, former ambassador to Germany, said:

"The situation in Europe is bad, and by that I mean Communism and consequent wars. You don't have to go out and look for it in France, it is everywhere."

### \$50 "Assessment" Refunded Employee

Revenue Department Employee Recovers on Eve of Fraud Trial

LITTLE ROCK.—Return of the \$50 contributed to the State Revenue Department's campaign fund by Wayne Carter, Ozark toll bridge collector, was reported Thursday night on the eve of a scheduled hearing at ozark for five state officials and employees on charges that they violated the 1935 pure election law.

Revenue Commissioner Earl R. Wiseman said that he and the others named in warrants charging them with intimidation of voters prior to the August 11 Democratic primary would be at Ozark Friday for trial.

Accused with Wiseman are Deputy Revenue Commissioner Paul Summers, Deputy Refunding Supervisor Clem Moore, G. H. Powell, bookkeeper in the Revenue Department toll bridge division, and Champ Futrell, Revenue Department inspector.

Wiseman did not reveal that the \$50 had been returned to Carter, but the latter's father, G. C. Carter, Ozark lawyer, said that his son had received a money order for the amount. A letter accompanying it was not made public.

Deputy Prosecuting Attorney J. D. Bonson of Ozark, who tauted the warrants to be issued, said that the charges were based on information furnished by the elder Carter and that the violations, if proved, would constitute misdemeanors, punishable by a fine not exceeding \$500.

Carter, who said he supported Attorney General Carl Bailey in the governor's race, said his son, Wayne Carter, had been notified that his services as toll bridge keeper at Ozark would be dispensed with Saturday.

"It has become increasingly our habit to look for the formulation of legal doctrine suited to new situations not to the courts but to the legislatures, and the record of the most important changes in the law is to be found in the statute books."

He said the prohibitions in the federal constitution are framed in terms of specific and "more or less detailed command," and they offer relatively narrow scope for treatment otherwise.

"But," he added, "the great constitutional guarantees and immunities of personal liberty and of property, which give rise to the most perplexing questions of constitutional law and government, are by statements of standards to be applied by the courts according to the circumstances and conditions."

### Chief of Revolt-Ridden Spain

Interested less in appearances than in the task of welcoming troops en route from Valencia to the civil war front north of Madrid, Jose Giral, president of strife-torn Spain, looks thumbs into his vest armholes while conversing casually with associates at the railroad station at Madrid.

### Discover Spy Code in 'Arabian Nights'

Book Furnished Key to Correspondence Between Moscow and Berlin

MOSCOW, Russia.—(Copyright Associated Press)—The story of how a copy of the Arabian Nights was used as a secret code between Russia's amazing anti-Stalin conspirators, gave a fantastic touch Friday to the trial of 16 confessed plotters.

A bewildered and discomfited prisoner, E. Holmann, solemnly recounted how he acted as linson man between T. Smirnoff, head of the Moscow Trotskyites, and Syedoff, Leon Trotsky's son in Berlin, with a copy of the book as his most important piece of baggage.

F. D. Invites London

HYDE PARK, N. Y.—(AP)—President Roosevelt Friday dispatched an invitation to Governor Landon of Kansas, Republican presidential candidate, and the governors of Iowa, Nebraska, Missouri and Oklahoma to meet him September 1 at Des Moines for one of a series of drouth conferences.

### Half of Stadium Ready This Fall

Hammons Expects That Much to Be Finished by Thanksgiving Day

Coach Foy Hammons told Hope Rotary club at Hotel Barlow Friday noon that he believed half of the high school's new football stadium would be completed by Thanksgiving day.

The stadium, a \$20,000 project, is being constructed jointly by the WPA and the athletic association, which latter group has been given financial credit by the City of Hope, the loan to be repaid out of stadium gate receipts.

Speaking of 1936 football prospects, Coach Hammons said:

"We lost six men because of erroneous age information, and that reduces our lettermen from 18 to 12, but these 12 are good. We will present an 180-pound line this fall, which is the equal of the average college line."

Mr. Hammons followed L. Carter Johnson on Friday's club program, Mr. Johnson presenting a review of Rotary magazine articles.

### 7th Grass Fire in 11 Days Reported

Blaze Started Through Negligence, Fire Department Announces

The seventh grass fire in the past 11 days sent the Hope Fire Department Friday morning to Park Drive. The blaze was extinguished without damage.

Firemen, returning from the scene, said that the fire started through negligence in burning trash.

Based on the figure of \$35 per fire the seven grass fires, most all of them blamed on negligence, have cost Hope taxpayers \$245.

Firemen again appealed to The Star to warn residents of the hazards in burning trash.

Due to the extremely dry weather, fire will sweep through grass at a rapid pace and may cause serious damage or loss of homes and property, they warned.

### Great Britain and Nazi Germany Join in Warning Spain

British Assert Their Ships Will Reply With Guns If Fired Upon

#### NAZI DUE TUESDAY

Augmented German Fleet to Be in German Waters Early Next Week

LONDON, Eng.—(AP)—Great Britain, adopting a policy similar to that of Germany, announced Friday "stern measures" would be taken against any interference with her shipping in Spanish waters.

Authoritative quarters said in the event a British ship was fired upon it would return three warning shots ahead of the offending craft, and then "we shall take aim."

Revolt in Portugal

LONDON, Eng.—(AP)—Unconfirmed reports reaching London early Friday said a revolution had broken out in Portugal and that it was believed President Oscar Carmona had been killed.

No messages had been received here from Lisbon, Portuguese capital, in nine hours.

It had been impossible to telephone Portugal for the past 10 days. Only outgoing calls had been accepted.

President Carmona, first elected November 29, 1926, ruled Portugal as dictator since a new constitution was adopted March 19, 1933. He was re-elected president for a seven-year term February 17, 1935, by an estimated majority of 1,000,000 votes.

The Portuguese government, while adhering last week in principle to France's proposal for a general European neutrality accord respecting the Spanish civil war, has indicated some leaning toward sympathy with the Fascist Spanish rebels.

In a note to the French government, the Lisbon regime assailed Leftist factions in Spain, saying that there had been unwarranted destruction of property and mass murders, committed "with cold premeditation."

BERLIN, Germany.—(AP)—Seven Nazi warships Thursday night drove to Spain to join nine others already there under orders to use force against "all unjustifiable acts of force."

The orders followed a German ultimatum to Madrid against repetition of such incidents as the reported search by Spanish loyalists of the German steamer Kamerun on the high seas.

Admiral Carl, commander of the Reich squadron, notified the Spanish government by radio of the issuance of the "force" instructions.

In a message to the German charge d'affaires at Madrid, the Nazi government said it would hold Madrid strictly to account for any similar future incident.

The Wilhelmstrasse and the press had been aroused by a report from the official news agency that Spanish loyalists had halted the Kamerun outside Spanish territorial waters off Cadiz and searched her, finding nothing out of order.

Force Threatened

Admiral Carl's radiogram said: "This action against a German ship is a breach of the right of free shipping on the high seas."

"I am not disposed to tolerate such acts of force."

"I have instructed my sea forces to meet all unjustifiable acts of force from your ships with force."

France Pessimistic

In Paris, these developments caused fear that France's proposed neutrality scheme had been upset almost irreparably. Some observers believed that drastic action in the Spanish situation had been stayed by two considerations.

1. There still were several thousand German nationals in Spain who, it was hoped still might be removed safely.

2. The Spain-bound Nazi warships were not due to arrive in Spanish waters until next Tuesday.

Feed Conservation Needed for West

Rigid Program Outlined for South Dakota Farmers This Year

BROOKINGS, S. D.—(AP)—Asserting every South Dakota farmer should conduct a rigid feed conservation program on his own land this year, Director A. M. Ebert of the State college agricultural extension service outlined steps to make such a plan effective.

His recommendations included: Cut all available roughage in fields; cut rough feed along the highways; conserve every acre of drouth-burned corn; and conserve straw piles.

Dry flies for trout fishing are now being made of cellophane.

### Turned Brown By Brown Turner

NASHVILLE, Tenn.—(Special)—Warships cost a million dollars more each this year than they did last year, the Navy Department discovered when it opened bids on a flock of them the other day, but if the drouth lasts much longer there may not be any place to use them next winter, if any.

Begins to look like somebody's going to have to feed the Spaniards when they get through with their war if there are any left. Casualty list is larger now than a week-end auto toll in this country. Just discovered where Mae West is. She's out on a ranch with a herd of blooded cattle and a pack of calico dogs.

### Indict Commander of Black Legion

Effinger and 21 Others Face Charges of Criminal Syndicalism

DETROIT, Mich.—(AP)—Virgil F. Effinger, of Lima, Ohio, described by Prosecuting Attorney Duncan C. McCrea as national head of the Black Legion, was indicted with 21 others Friday on charges of criminal syndicalism in connection with the activities of the hooded order.

The indictment, containing two charges, accused Effinger and others with advocating or teaching "crime, sabotage, violence and other forms of terrorism as a means of accomplishing industrial or political reform."

Effinger said he had received replies to his poll from 60 legislators, and that a majority favored a special session. He said he probably would announce his decision Saturday.

Session Uncertain

LITTLE ROCK.—Prospects of a special session of the legislature, proposed by Governor Futrell, appeared somewhat remote Thursday.

The governor revealed that only about 20 members had replied to his inquiry and that most of the letters approving a session to appropriate additional funds for old age pensions contained reservations or qualifications.

Suggestions came from several representatives that, if a special session is called, an investigating committee should be created with authority to inquire into the assessing of state employees to raise a campaign fund.

Governor Futrell denied that he desired to have the senate confirm appointments which he has made since the 1935 session or which he failed to submit before the legislature adjourned.

A conference of Attorney General Carl Bailey, nominee for governor, with Governor Futrell, Comptroller Griffin Smith and the state Public Welfare Commission was urged, with a view to working out a temporary solution for using all relief funds available for old age pensions without calling the legislature into session.

### Negro Bootlegger and Wife Seized

Dennis Williams who, officers said, succeeded "El Dorado Slim" as king of Hope negro bootleggers, was arrested Thursday when officers raided his home on Radical Hill and seized a small amount of moonshine liquor.

"El Dorado Slim"—otherwise known as Creg Simms, died with four bullets near his heart the night of July 23 following an altercation with another negro near the North Side Beer Garden. At the time of his death he had numerous charges pending against him.

Officers recalled Friday that they had raided Williams on numerous occasions and at one time were forced to padlock his place.

Williams' wife, Ethel, will also be formally charged with possession of untaxed liquor for purpose of sale. They are at liberty under bond. Both will be given a hearing in municipal court next Monday.

Officers raided two other suspected moonshine joints late Thursday but failed to find any liquor. Authorities said that the raids were made on complaints of residents on Radical Hill.

Participating in the raids were Chief of Police John W. Ridgill, Policemen Hugh Bearden and Deputy Sheriffs Reginald Bearden and R. O. Robins.

Foster W. Drake, 35, of Little Rock, was burned possibly fatally.

## One-Man Railroad Toots Help Plea

The one-man staff of the Pioneer & Fayette Railroad—Earl S. Snyder, below, in engine cab, president, engineer, conductor, mechanic, and whatnot—has hopes that the government will save his 13-mile line operating between the two Ohio towns after which it is named. Given an RFC loan of \$10,000 in 1934, Snyder had hard luck, due to drought and need of a new locomotive, so he asked a first extension on repayment and now has requested a second. If he gets it, he can continue operating his gas-powered train, shown in top photo—and also his hardware store.

## Weekly Sunday School Lesson

By WM. E. GILROY, D. D.  
Editor of Advance

**ETHE GOSPEL FOR ALL MEN.**  
Text: Acts 15:1-17  
No lesson could be more appropriate or more needed, for our own times, than this one, based on Peter's vision on the housetop. After 19 centuries, the Gospel of Jesus Christ faces the same barriers of racial and sectional prejudice that were present in the early days of Christianity.

Here was Peter, a devout and earnest man, so open-minded that he had become an apostle of the new faith; a man of fine emotions and of splendid courage, yet so bound by racial and religious prejudice that it was only by means of a remarkable vision that God could break down his narrowness and make him see that salvation was as much for the Gentile as for the Jew.

The vision was so decided in its details, and so plain in its implications, that Peter could hardly miss its meaning, especially as his dream had scarcely ended when the three men who had been sent from Caesarea by Cornelius, a Roman officer, came on their mission.

It is to Peter's credit that he rose to the vision, that he set aside his narrow prejudices, and welcomed Cornelius to the Christian faith as a brother.

Our prejudice may not be of the same sort as Peter's, but rare is the man, even though his profession of faith be deep, who has not somewhere in him the traces of some bias and prejudice that limits the fullness and the expression of his brotherly feeling toward his fellow men.

When such prejudice becomes a barrier to the giving to men of the salvation that God intends for them, it is something more than a small and personal thing; it is an interference with divine plans and with divine grace.

Paul, who had the same background of early training and prejudice that Peter had, overcame his prejudices more easily. Perhaps this was because Paul's prejudice had made him a great persecutor, and the conversion that changed him was so sudden and so extreme that his old prejudices were more easily and completely swept away.

Both Paul and Peter were forced by the plain facts of grace to recognize that God is no respecter of persons, and that the Gospel of Christ is the power of God unto salvation to every one who believes, regardless of the human limitations of creed, race, and other driving factors.

Man is never so godly as when he sees his fellow men with the love that takes in the whole human family. The world would justly according to its own interests and philosophy the narrow prejudices of race, creed, class, and nationalism which thrive so abundantly in its soil that they would choke out the flowers of grace and humanity. But, in the light of the New Testament, and the true experience of God in the soul, human prejudices and hates have a base and mean aspect.

## Myrna Loy Once Siren, Now Beauty

Since 1929 She Has Become Outstanding Woman Screen Star

By ROBBIN COONS  
Associated Press Correspondent  
HOLLYWOOD—Interview with Myrna Loy, 1919 model:

She sat in a straight chair in a drab studio office, and nervously fingered the strings of her tennis racket while she hesitantly answered questions about her life and work. She looked like a schoolgirl, pale face dotted with many freckles, and her kinky red hair done simply in a plain knot at the back.

She was as different as possible from the sithering siren one expected to meet, because that was when Myrna Loy was inevitably the velvet prophetess of doom, the fatal oriental Lorelei who lured heroes to destruction unless—as usually happened—the blonde heroine stepped forward in time.

She did wish, she confided diffidently, that she did not have to play so many of those parts. But she was glad to be working, and she would rather do those than wait for better . . .

The slant-eyed siren was just a but-tercup, and no more exciting.

Myrna, 1936

But there is Myrna Loy, 1936 model: A smart young woman with a sort of gay dignity sits on the yellow silk divan in her white-walled dressing room where tall sprays of flowers are reflected in mirror-top tables. Her dark green dressing robe emphasizes the rich colors of a smart costume topped with auburn ringlets. Makeup hides the freckles but the humor that goes with them shines through.

She too remembers the scared, shy girl of earlier picture days, and recalls a still earlier experience when her agent took her to interview a producer whose verdict was that she had "absolutely nothing" for pictures.

"He said I was colorless," she recalls, "and I'm sure I must have been. I was terrified, and afterward I was crushed. To be sure, it was a time when the flapper was queen, and a girl had to be full of hopping-and-skipping energy to get anywhere. But all I could think of was that I had failed to impress."

Success Brings Success

"I was a mouse, scared to death. I had one of those terrible interior complexities that come from thinking everything is too serious and too vital. How did I overcome it? Well, just a little success brought the realization that accomplishment was not impossible, and that realization brought enough confidence to make accomplishment easier . . .

The big success that has been hers since "The Thin Man" three years ago apparently liberated further the Loy personality. The "little mouse" of 1929 would never have undertaken a strike against her studio—as Myrna did, pretty successfully.

She and Arthur Hornblow, Jr., her new husband and one of the smartest young producers, are building a house—"bigger than we'd planned, but still not too big," she explains.

And the but-tercup has turned into an American Beauty.

## Transportation Is to Be Improved in Philippines

MANILA, P. I.—(AP)—A transportation board to advise the new Commonwealth government in matters of improving land, marine and air transportation, has been created by President Manuel L. Quezon.

The board will be assigned the task of planning new highways, developing public railroad and motor vehicle services, locating and improving sea ports, developing facilities for air transportation and coordinating and systematizing of all aids to transportation and navigation.

## Tiny Island May Be Vital to Italy

Dumeira Might Enable Italy to Close Red Sea to Enemy Ships

ADDIS ABABA—(AP)—Viceroy Rodolfo Graziani, in taking stock of Italy's new East African empire, has found that probably the smallest portion of it may one day be the most important. This is the island of Dumeira, tiny and barren but of great strategic importance because it lies at the narrow southern entrance to the Red Sea.

Italy got it not as a result of the Italo-Ethiopian war but from Mussolini's negotiations with French Foreign Minister Pierre Laval in January, 1935. France then ceded a section of French Somaliland, including Dumeira to Italy.

Dumeira has now been fortified. With a supporting navy it might be able to close the Red sea to enemy ships.

Fifteen miles to the southeast, however, is Perim, a British fortified area under the protectorate of Aden. The threshold of the Red sea is already a troublesome spot for sailors on account of its irregular tides, sudden squalls and narrow channels.

Two navigation lanes in the straits of Bal el Mandeb lead into it. Many wrecks gave this spot the name of "Gate of Tears."

Dumeira, which measures less than a mile in diameter, has an anchorage suitable for small ships on its western side, facing Eritrea and concealed from Perim.

Geologists say that at one time Dumeira and Perim were part of an isth-

mus joining Arabia with Africa. From water flowed and trees grew there in prehistoric days.

An Amendment to Provide for an Exemption of Homesteads from Certain State Taxes

Section 1. The homestead of each and every resident of the state, whether or not such resident be married or unmarried, male or female, shall be wholly exempt from all state taxes authorized or referred to in Section 8 of Article XVI of the Constitution of Arkansas in all cases where such homestead does not exceed the assessed valuation of One Thousand Dollars (\$1,000.00). Where the assessed valuation of such homestead exceeds One Thousand (\$1,000.00) this exemption shall apply to the first One Thousand Dollars (\$1,000.00) of such valuation.

Section 2. Within a maximum limit of Two Thousand Five Hundred Dollars (\$2,500.00) and a minimum limit of One Thousand Dollars (\$1,000.00), the legislature is hereby authorized and empowered from time to time to fix the amount of the exemption hereby provided.

Section 3. It is hereby made the duty of the legislature, and the legislature is hereby directed: (a) Fully and completely to replace or restore any and all funds which will or may be eliminated, diminished or otherwise affected hereby or hereunder; but the legislature shall not, in order to accomplish that purpose, impose or levy any new form of tax.

INITIATED ACT NO. 3  
"An Act to Amend, Modify and Improve Judicial Proceedings and the Criminal Law, and for Other Purposes."

"Be It Enacted By the People of the State of Arkansas:

Section 1. PRESERVATION OF TESTIMONY. If any witness fails to enter into the recognition provided by sections 2935 and 2936 of Crawford and Moses' Digest, or if the magistrate from the proceedings had before him or from testimony on oath has reasonable ground to believe that any witness who has entered into such recognition will nevertheless not appear and testify at the trial of the cause, the witness shall be examined

on behalf of the State or the defendant on application made for that purpose. Such examination shall be preceded by notice to the other party, and shall be by question and answer in the presence of the defendant and the prosecuting attorney or his deputy or other attorney for the prosecution, with opportunity given for cross-examination, and the testimony given shall be transcribed in writing. The examination shall be conducted in the same manner as other examination of witnesses before a committing magistrate is required by law to be conducted, and shall be a part of the preliminary examination. The magistrate, on rendering judgment that the defendant be held to await further proceedings, shall not then dismiss the hearing, but shall continue it, and shall be deemed to have continued it whether or not he has entered a formal order to that effect, and shall retain his jurisdiction over the case, for the purpose set out in this section only, until the case is acted upon by the grand jury. The magistrate when he releases any defendant on bond to await further proceedings, shall require as a condition in such bond, in addition to other conditions required by law, that the defendant appear before the magistrate for further proceedings at any time that he may be lawfully summoned so to appear, the bond to be forfeited for breach of this condition as is provided in other conditions contained therein. The magistrate shall reopen the preliminary examination for the purpose of hearing and preserving the testimony of witnesses, as hereinbefore provided, on motion of either the State or the defendant at any time while he still retains jurisdiction of the case.

Section 2. TRANSCRIPT ADMISSIBLE IN EVIDENCE. When a witness has been examined as provided in Section 1 of this act, and his testimony taken as provided therein, the transcript of his testimony shall be admitted in evidence before the trial of the defendant for any offense arising out of the criminal transaction for which he is held, either on behalf of the State or of the defendant, if for any reason the testimony of the witness cannot be obtained at the trial and the court is satisfied that the inability to procure such testimony is not due to the fault of the party offering the transcript in evidence.

Section 3. PERJURY IN THE FIRST DEGREE. Perjury in the first degree is the offense committed by a person who swears, testifies, or affirms falsely to any material matter in any cause, matter or proceeding before any court, tribunal, body corporate or other officer having by law authority to administer oaths, or to any affidavit, deposition, or probate authorized by law to be taken before any court, tribunal, body corporate or officer.

Section 4. PERJURY IN THE SECOND DEGREE. A person who swears or affirms that he will truly testify, declare, depose, or certify, or that any testimony, declaration, deposition, certificate, affidavit or other writing by him subscribed, is true, in any action of any kind, or in a special proceeding, or upon any hearing, or inquiry, or on any occasion in which an oath is required by law, or is necessary for the prosecution or defense of a private right or for the ends of public justice, or may lawfully be administered, and who in such action, proceeding, or on such hearing, inquiry or other occasion, willfully and knowingly testifies, declares, deposes, or certifies falsely, in any matter or state in his testimony, declaration, deposition, affidavit, or certificate, any matter to be true which he knows to be false, and who is not guilty of perjury in the first degree, is guilty of perjury in the second degree.

Section 5. CONTRADICTION TESTIMONY OR STATEMENTS UNDER OATH. In case of an indictment or information for perjury, when the party accused may have made several contradictory statements under oath affecting the same matter or transaction, all the several statements, although made at different times and before different courts or authorities, whether in the form of testimony, declaration, deposition, certificate, affidavit, or other writing by him subscribed, may be charged in the same indictment. Proof that any one of such statements is false shall be sufficient to convict for such statement as proved to be false, provided the court or jury trying the case is convinced, from all the testimony of the guilt of the defendant beyond a reasonable doubt.

Section 6. SUBORNATION OF PERJURY IN THE FIRST DEGREE. A person who willfully procures or induces another to commit perjury in the first degree, is guilty of subornation of perjury in the first degree.

Section 7. SUBORNATION OF PERJURY IN THE SECOND DEGREE. A person who willfully procures or induces another to commit perjury in the second degree, is guilty of subornation of perjury in the second degree.

Section 8. PUNISHMENT OF PERJURY IN THE FIRST DEGREE. Perjury in the first degree and subornation of perjury in the first degree are each punishable by imprisonment in the State penitentiary for not less than one nor more than fifteen years.

Section 9. PUNISHMENT OF PERJURY IN THE SECOND DEGREE. Perjury in the second degree and subornation of perjury in the second degree are each punishable by a fine of not less than fifty nor more than five hundred dollars.

Section 10. WHAT JUDGMENTS PERMISSIBLE UNDER INDICTMENT FOR PERJURY IN FIRST DEGREE. In case of an indictment for perjury or subornation of perjury in the first degree, a verdict and judgment of conviction either of perjury or subornation of perjury in the first degree or of perjury or subornation of perjury in the second degree shall be permissible.

Section 11. INSANITY DEFENSE. Whenever a prosecution for any crime has been instituted in the circuit court by indictment or information, and the defense of insanity at the time of the trial or at the time of the commission of the offense has been made a part of the defense, and becomes an issue in the case, or the circuit judge has reason to believe that the defense of insanity will be raised on behalf of the defendant and will become an issue in the case, or shall be of the opinion that the defendant is not sane, he may, in his discretion, order a hearing to be held to determine whether the defendant is sane at the time of the trial or at the time of the commission of the offense.

Section 12. TESTIMONY OF PHYSICIANS.
